BUILT IN SCOTLAND FOR SCOTLAND'S FUTURE

INFRASTRUCTURE PATHWAY

SCOTLAND'S PRIMARY-TO-EMPLOYMENT MODEL FOR THE ENGINEERS OF THE FUTURE

The Infrastructure Pathway is Scotland's Primary-to-Employment model for developing the Engineers of the Future.

Built around **Education**, **Experience** and **Employment**, and powered by a **Digital Twin of Scotland** built by education, for education and industry, it connects learners of all ages to real-world challenges, emerging technologies and future careers.

By transforming learning into participation, and participation into opportunity, Scotland can create a world-leading talent ecosystem that develops the **skills, innovation** and **workforce** required to design, build and operate the sustainable infrastructure systems of the future.

EDUCATION
Inspiring minds.
Building knowledge.
Shaping tomorrow.

EXPERIENCE
Real-world learning.
Hands-on challenges.
Building confidence.

EMPLOYMENT
Meaningful careers.
Creating impact.
Building Scotland's future.

A DIGITAL TWIN OF SCOTLAND

Built by education, for education and industry.

- **Education. Experience. Employment.**
- **Primary to Employment.**
- **A Digital Twin of Scotland.**
- **Engineers of the Future.**

Connecting learners of all ages to real-world challenges, emerging technologies and future careers.

TRANSFORMING LEARNING. POWERING FUTURES. BUILDING SCOTLAND.

TOGETHER, WE CAN DESIGN, BUILD AND OPERATE THE SUSTAINABLE INFRASTRUCTURE SYSTEMS OF THE FUTURE.
